BASIC AND ESSENTIAL HEALTH PLANS (B & E PLANS)

B & E Plans are NOT standard plans. The services and supplies covered under the plans are not as comprehensive as the coverage under the standard plans. The information given below is intended to provide some basic information as to the types of plans available. The rates are shown for illustrative purposes only. The actual rate for an applicant will depend on the carrier selected, whether a rider is bought, and the age, gender and location of the applicant. Contact the carriers for specific benefit and rate information.

Under the Rating Factors caption, "A" means the rates are based on age; "G" means the rates are based on gender; "L" means the rates are based on geographic location.

The rates above are the lowest single rates available for any geographic location. Thus, a 35 year old male will not necessarily be charged the above rate since a different rate may apply based the location of the applicant.
